**Veterans Day**, November 12, is the day to remember the sacrifice and contribution of all who served in the military. We want to say thank you and express our gratitude to all U.S. veterans. Everyone at our law firm recognizes and appreciates your commitment to our country and the sacrifices your families have made.

Each year, as Veterans Day draws near, many people ask what they can do for our veterans. Here are three recommendations:

1. Acknowledge Veterans for their service by saying "Thank you for your service." Whether that's on Facebook, a text message, a phone call, a letter, or an in-person greeting. A sincere acknowledgment can go a long way.
2. Get involved in your community where veterans frequent: VFW Posts, local Veterans Center, American Legion, or local non-profit. Veteran organizations are always looking for volunteers.
3. Better yet, see if you can hire a recent veteran. Post your job opening at Veterans.gov or contact a Veterans Employment Representative at an American Job Center.

Here are 8 more ways to get involved and show your appreciation, from [Military.com](http://Military.com).

## Racing On Ice ... ANYONE?!

100 MPH. On Ice! With NO Brakes! Razor Sharp Steel Spikes at your knees. Handlebars scraping the ground... No wonder Ice Speedway riders are known as the bravest and craziest as they compete in a sport that has been said to be "the MOST dangerous of all forms of racing in the world".

The majority of Ice Speedway events are held in Russia, Sweden and Finland. Riders lean their bikes into the bends at an angle where the handlebars just skim the track surface. Tires maintain their grip with hundreds of razor sharp steel spikes digging into the ice. This makes the sport even more dangerous with fallen riders running the risk of being run over and shredded by other bikes.
